

The Connekt programme of Lean & Green congratulates

on winning the Lean & Green award for her efforts
to achieve the following targets:

**VDL Container systems aims at reducing their CO₂ emissions in 2017
by at least 21,3% in comparison with 2012. The CO₂-emission
is expressed in kg CO₂ per employee (FTE).**

VDL will take the following measures to achieve this target:

- Encourage teleworking
- Change their lease fleet
- Encourage carpooling
- Encourage sustainable driving behavior
- Optimize the planning of the departments sales and services
- Encourage cycling for commuters
