The Connekt programme of Lean & Green congratulates lean-green.nl on winning the Lean & Green award for her efforts to achieve the following targets:

VDL will take the following measures to achieve this target:

- Encourage teleworking
- Change their lease fleet
- Encourage carpooling
- Encourage sustainable driving behavior
- Optimize the planning of the departments sales and services
- Encourage cycling for commuters

VDL Container systems aims at reducing their CO₂ emissions in 2017 by at least 21.3% in comparison with 2012. The CO₂-emission is expressed in kg CO₂ per employee (FTE).
